The Intelligent Document Management Tool-AVScan 2

The AVScan 2 main screen

Document Imaging is the very first step of Document Management. However, poor quality images can cause serious problems to later indexing or storing processes. It may increase scanning labour costs and lowers the OCR accuracy. AVScan 2 ensures all documents are checked and polished at the time they are scanned such that the image quality is guaranteed before they are ready to use for other purposes.

AVScan 2 is an intelligent scanning and electronic filing solution. AVScan 2 possesses distinct features that convert and index scanned information into electronic documents for easy storage and fast retrieval.
